
Santander award contract to Safetell

Santander is one of the UK's leading personal financial services companies with over 1,300 branches and around 4,500 cash machines offering a full range of retail and corporate banking services to over 25 million customers.

With a strong focus on retail banking, through its large branch network, the aim of Santander is to offer the greatest value to its customers, shareholders, and employees.

Safetell is a provider of high specification high quality security products, maintenance and repair services to large corporate clients.

Having worked for Santander for many years, Safetell is committed to providing good value services that aid clients, such as Santander, in meeting their business objectives.

Using its own helpdesk and network of directly employed technicians Safetell is able to provide good quality service nationwide across the U.K.

Safetell has recently been awarded a two year service and maintenance contract to support a range of equipment for the Santander branch network.

Anton Pieterse Managing Director of Safetell Ltd said that "we are delighted that Santander have awarded this contract to us, and we are focused on delivering the high quality cost effective service that we know that the customer expects".
