Sliding Security Window

Sliding Security Window

Introduction

Safetell Sliding Security Windows are a horizontal sliding anti-physical attack moving security window.

The product incorporates 11.5mm anti-physical attack glass and steel frame in a design that provides resistance to BSEN356 P3A impact levels.

The sliding pane is capable of locking at a number of points between fully closed and open.

Safetell Sliding Security Windows are available as a standard 1200mm x 1000mm high module.
