Automatic Swing Door Opening Remote Locking

Automatic Swing Door Opening, Remote Locking

Introduction

Safetell provides Swing Door Automation systems, and or remote locking, installation, and repair services nationwide.

Easily retrofitted to existing doors Safetell swing door opening systems provide automatic door opening for those that require it, such as parents with pushchairs or those in need of assistance, combined with the speed of normal door usage for those that don't.

Safetell provides solutions for virtually all types of doors and door frames.

A wide range of 'pushbutton' activators are available, including through glass proximity and stainless steel vandal resistant post types.

Safetell can provide remote locking / opening solutions to suit operational requirement typically for staff to open or lock a door at a button press.
