SAFETELL SECURITY PORTALS

DDA APPROVED CIRCLE PORTALS

A high security solution to control entry and exit to internal secure areas. Available as larger DDA circle and square units to meet existing building aesthetics and client needs. Our Security Portals offer single person passage checking and abandoned object detection systems with a DDA approved wide passage. Available with a range of security resistance levels including EN1627 RC4 Manual Attack rating and EN1522 FB4 Ballistic Rating. Our Security Portals are designed to be integrated with any access control system.

MAIN FEATURES

- SA249 is a removable structure
